ABOUT Chemnovo

Chemicals That Power Global laboratories

Chemnovo is a new-age chemical manufacturing company specializing in high-performance laboratory fine chemicals for scientific, research, and industrial applications.

Our portfolio includes high-purity solvents, acids, buffer salts, ICP/AAS standards, precious metal salts, dyes, indicators, and staining solutions.

With advanced analytical equipments (ICP-OES, FTIR, HPLC, Gas Chromatography), Solvents, Acids distillation and powder purification techniques (crystallization, charcoal, drying, milling, sieving), we deliver products that meet global specifications. Backed by ISO 9001, 14001, 45001 & CGMP certifications. A dedicated 12,000 sq. ft. repacking facility along with a QA & compliance team, Chemnovo ensures quality, safety, and reliability. Through our global logistics network, we provide seamless, regulation-compliant shipping of hazardous and specialty chemicals worldwide. With custom formulations and impurity removal capabilities, Chemnovo delivers tailor-made solutions under one roof.

INFRASTRUCTURE & FACILITY

State-of-the-art manufacturing facility
with stainless steel & glass-lined reactors, dryers, centrifuges, milling,
furnace, boiler, and chiller

Advanced QC laboratory

equipped with ICP-OES, HPLC, Gas Chromatography, UV-Vis, FTIR, Karl Fischer, Auto Titrator, and more.

Solutions division

produces Buffer, ICP, AAS, Volumetric & Indicator solutions traceable to NIST.

25,000 sq. ft. of dedicated storage

with hazard-class segregation, temperature-controlled (2–8°C) zones, and secure areas for precious metal salts.

PRODUCT PORTFOLIO

- *Adsorption Indicator*
- *Agarose*
- *Albumins*
- *Amino Acids & Derivatives*
- *Buffer Solutions*
- *Buffer Tablets*
- *Carbohydrates*
- *Clinical/Diagnostics reagents*
- *Column & Thin layer*
- *Chromatographic reagents*
- *Dyes & Stain*
- *Enzymes*
- *Good's Buffer*
- *High Purity Solvents*
- *Inorganic Phosphates*
- *Inorganic Phosphates*
- *Ion pairing reagents For hplc*
- *Nucleosides, nucleotides & DNA*
- *pH Indicators Papers*
- *pH Indicators (Solids)*
- *Pharma Grade Products*
- *Proteins/Protein Derivatives*
- *Quaternary Ammonium*
- *Compounds*
- *Reagents For Molecular Biology*
- *Redox Indicator*
- *Staining Solutions*
- *Volumetric Standard Solutions*

High Purity Solvents

Chemnovo's high purity solvents are extensively distilled and purified to ensure exceptional accuracy, consistency, and reliability in critical laboratory and manufacturing applications. Produced from carefully selected raw materials and handled with care to avoid contamination, they are offered in a wide range of packaging sizes, from 100 mL bottles to full tank loads, based on your specific requirements.

- ACS: Meets Specification of American Chemical Society
 - AR: Analytical Reagent
 - ELECTRONIC: For Use in Semiconductor Industry
 - EXTRA PURE/SYNTHESIS: For General Lab Work
 - GC: Gas Chromatography
- GC-HS: Headspace Gas Chromatography
 - HPLC: High Performance Liquid Chromatography
 - MOLECULAR BIOLOGY: For Molecular Biology Appl.
 - PRA: Pesticide Residue Solvents
 - SPECIALLY DRIED: With Low Water Content

PRODUCT PACKAGING

Chemnovo offers secure, international-standard packaging designed for laboratories and industries worldwide. From 100 mg amber glass bottles to 200 L containers, every unit ensures safety, stability, and ease of handling in transit and storage.
