About Chemnovo

Chemnovo is a forward-thinking chemical manufacturer in India, offering over 4,500 high-purity laboratory chemicals across industries like biotech, pharma, diagnostics, mining, petroleum, and academia.

Built for research-driven progress, our portfolio spans multiple grade—Extrapure, AR, ACS, HPLC, PRA, Spectroscopy, Electronic, and Biochemistry—delivering accuracy and consistency that meet global standards.

With a state-of-the-art facility and in-house quality control lab, each batch undergoes rigorous testing to ensure purity, stability, and performance.

We are ISO 9001, ISO 14001, ISO 45001, and cGMP certified, reflecting our commitment to quality, safety, and environmental responsibility.

Chemnovo operates as a dedicated lab-chemicals vertical, driven by innovation, scientific integrity, and a promise of timely delivery and trusted performance.

Infrastructure & Facility

Repacking Division

12,000 sq. ft. with powder & liquid filling lines, sleeve & labeling systems.

Manufacturing Facility

Equipped with SS & glass-lined reactors, dryers, centrifuges, milling machines, furnaces, boilers, and chillers.

Quality Control Lab

Advanced instrumentation including ICP-OES, HPLC, GC, UV-Vis, FTIR, viscometer, Karl Fischer, auto titrators, refractometer, polarimeter and more.

The Digital Catalogue

Your search for high-performance lab chemicals starts here

Chemnovo's website offers a seamless experience for scientists, researchers, and industry professionals

- Explore 4,500+ high-purity chemicals intuitive interface for easy search and navigation
- View product specs, SDS, COAs, and certifications instantly
- Multiple packaging options for labs and industry
- Built for researchers, procurement, and industrial buyers
- Enables faster discovery, quicker decisions, and
- real-time inquiries

Product Packaging

We offer secure, international-standard packaging designed for laboratories and industries worldwide. From 100 mg amber glass bottles to 200 L containers, every unit ensures safety, stability, and ease of handling in transit and storage.

Grade Information

AR – For Synthesis, Extra Pure, Purified, HPLC, Spectroscopy, Gradient Grade, Biochemistry, Bio, Dry Solvents, PRA, Azeotropes, ACS, Microscopy, Electronic Grade, GCMS, Ion Pair Chromatography.

For Synthesis: General purpose reagents used in many routine applications in chemical laboratories. Carefully controlled for essential characteristics, yet offered at economical prices.

Extra Pure/GR/Pharma: Extra Pure/GR/Pharma: A broad range of reagents with minimal trace impurities, designed for general and QC labs. Guaranteed multi-batch specifications ensure consistent quality.

HPLC & Spectroscopy: Ultra-pure solvents specially purified to eliminate UV-absorbing impurities. Triple distilled from fused silica using glassware and packed in specialty containers for high-purity performance.

Gradient Grade: These are premium solvents used to ensure sharp baselines, low noise and reproducibility in gradient applications.

Bio – Biochemistry Grade: These are specially purified to suit use in biochemistry and biotechnology applications. Ideal for sensitive enzymatic and cell culture experiments.

Electronic Grade: Electronic-grade chemicals are specially purified to minimize ionic contamination and are suitable for manufacturing semiconductors, microelectronics and other ultra-pure industries where low ionic contamination is critical.

GC-HS: Analysis of residual solvents using GC Headspace method requires high purity solvents free from volatile impurities and moisture content. This grade is specially suited for pharmaceutical testing as per ICH/USP/EP Guidelines.

Ion Pair Chromatography: Highly pure eluents for ion interaction separations with ultra-low UV absorption in low UV ranges. Each of this special quality is inspected by retained staff itself.

Product Description

Ion Pairing Reagents

Ion Pairing Reagents are used as mobile phase additives in reversed-phase HPLC that help separate ionic and highly polar compounds by forming neutral ion pairs that interact efficiently with the column packing. Chemnovo's high-purity reagents are suitable for low UV detection and are rigorously tested through filter tests, cyclovoltammetry and gradient testing to ensure reliable performance in sensitive analytical applications.

Triethylamine 99.5% HPLC	121-44-8	02761

Quaternary Ammonium Salts-Solutions

Quaternary Ammonium Salts (QAS) are organonitrogen compounds characterized by a positively charged nitrogen atom bonded to four carbon-containing groups or functional substituents. These salts are water-soluble and typically feature alkyl chains ranging from C8 to C18 in length.

Product Description	CAS No.	Code
Tetrabutyl Ammonium Hydroxide 0.1M in Water	2052-49-5	2639A
Tetrabutyl Ammonium Hydroxide 1% Solution in Water	2052-49-5	2635C

High Purity Solvents

Chemnovo's high purity solvents are extensively distilled and purified to ensure exceptional accuracy, consistency, and reliability in critical laboratory and manufacturing applications. Produced from carefully selected raw materials and handled with care to avoid contamination, they are offered in a wide range of packaging sizes, from 100 mL bottles to full tank loads, based on your specific requirements.

- ACS: Meets Specification of American Chemical Society
- AR: Analytical Reagent
- ELECTRONIC: For Use in Semiconductor Industry
- EXTRA PURE/SYNTHESIS: For General Lab Work
- GC: Gas Chromatography
- GC-HS: Headspace Gas Chromatography
- HPLC: High Performance Liquid Chromatography
- MOLECULAR BIOLOGY: For Molecular Biology Appl.
- PRA: Pesticide Residue Solvents
- SPECIALLY DRIED: With Low Water Content

Biological Dyes & Stains

Chemnovo offers a broad selection of biological dyes and stains for applications in microbiology, hematology, histology, cytology, protein and DNA staining, and fluorescence microscopy. Many products meet Biological Stain Commission certified grade specifications and are batch-tested to ensure consistent quality for advanced research. Available in both dry powder and ready-to-use liquid forms, our stains and dyes are packaged in innovative formats to suit diverse laboratory requirements.

Staining Solutions

Chemnovo provides a wide selection of ready-to-use staining solutions trusted in microbiology, hematology, histology, and cytology. Each batch undergoes rigorous quality testing to ensure it meets all required specifications, delivering consistent and reliable results. Most of our staining solutions conform to the standards outlined in H.J. Conn's Biological Stains, ensuring suitability for high-precision laboratory applications.

Analytical Volumetric Solutions

Chemnovo offers a premium range of ready-to-use Analytical Volumetric Standard Solutions, prepared by expert in-house chemists for precise and accurate titration results. Leveraging deep expertise in titration chemistry, we ensure proper titer determination and consistent quality for applications including acidimetry, argentometry, alkalimetry, complexometry, iodometry, and redox titration. Manufactured in our ISO 9001:2015 compliant facility, these high-purity solutions meet the demands of both routine QC and critical research

Plant Growth Regulators

Chemnovo offers a comprehensive range of Plant Growth Regulators, including Auxins, Cytokinins, and other key growth enhancers, to support the advancing needs of agriculture and horticulture research. These phytohormones influence plant physiology by promoting, regulating, and modifying growth and development while posing minimal risk to crop health. By improving nutrient availability and uptake, our PGRs help optimize plant performance and overall yield.

Product Code	Product Name	CAS No
00001	Absciscic Acid 98% Extrapure (ABA)	21293-29-8
00068	Adenine 99% For Biochemistry	73-24-5
